

Steamer Bacon

Use the steamer for bacon and cook in the microwave...so crispy!

Multipurpose Steamer: lay about 6 pieces of bacon on the tray. Lid on, 5 minutes.

Round Steamer: place a piece of paper towel on the bottom, and lay strips of bacon over top, about 5-6 pieces. Lid on, 5 minutes.

Rectangle Steamer: place a piece of paper towel on the bottom, and lay strips of bacon over top, about 3-4 pieces. Lid on, 3 minutes.

**cook longer at 1 min intervals if you find its not quite done.

**You can do more bacon at one time...just put paper towel in between layers and increase the cook time
